

Ferry Management System

This readme files contain instructions on how to run and view our prototype made with Figma. The prototype can be accessed here: [Ferry Management System](#)

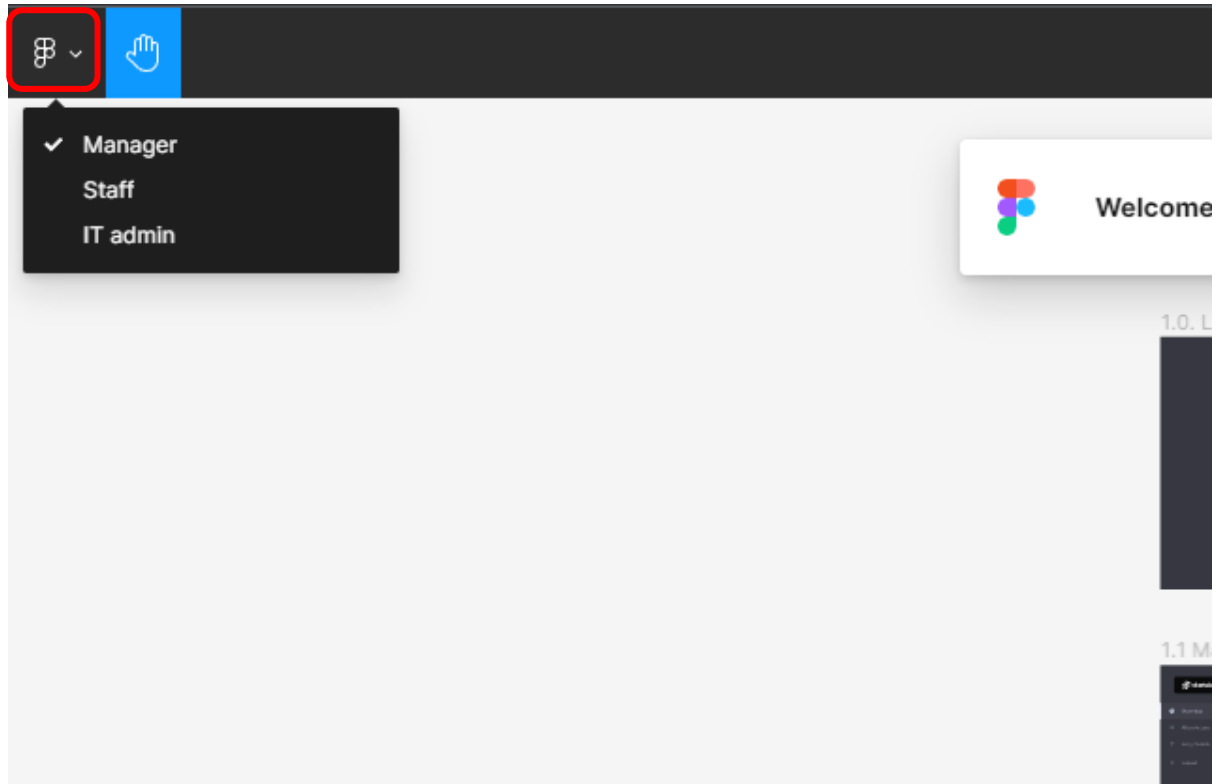

Step 1:

- Access the link [Ferry Management System](#) which will bring you to our prototype.
- Once at the page, you will be greeted by the prototype

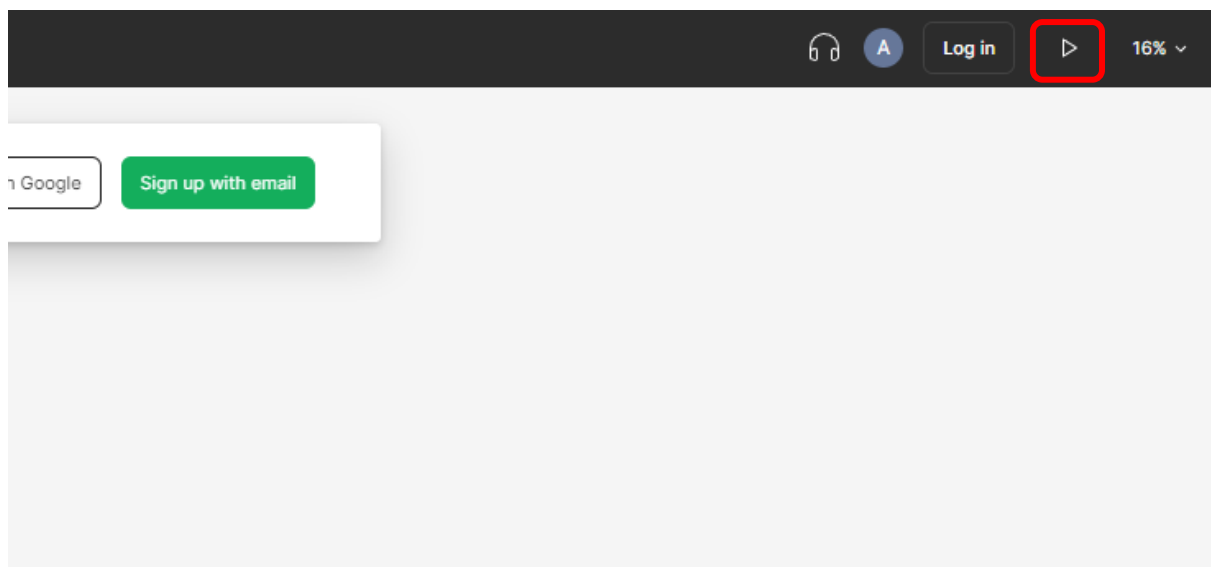

Step 2:

- Click on the dropdown (highlighted in red) on the top left hand of the screen to switch between the different roles. The default will be manager.

Step 3:

- Once a role is selected click the play button (highlighted in red) on the top right of the screen to start the prototype.

Step 4:

- Rinse and repeat for the 3 different roles and enjoy the prototype!
